

## STEAM-TRAC ST-1000

## **Direct Reading Steam/Water Level Gage**

For 1000 PSI Working Steam Pressure (WSP)

- Fully compliant with ASME as a Direct Reading Water Gage
- Multiple sections with minimum 1" overlap
- Spring washers for constant torque
- Recessed gasket face in chamber and cover
- Custom built per specifications
- Studs, nuts and washers are nickel plated
- High temperature coating

Steam-Trac ST-1000 steam gages are ruggedly built to set the industry standard for reliability. All material and construction standards are within strict compliance of ASME section 1 code requirements.

The Steam-Trac ST-1000 can be configured to replace less durable, more expensive competitive models or for specific construction products. Visible range must be achieved by using multiple sections with a minimum 1" overlap to ensure continuous visibility, as required by ASME Section 1, PG-60.

Standard Materials

Chamber: A-105 Carbon Steel

Gasket: Grafoil® GHR Shield: HQ Mica

Glass: Tempered Borosilicate
Cover: Forged Carbon Steel

Washers: 17-7PH Stainless Steel, Nickel Plated

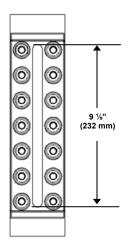

Studs: A193-B7, Nickel Plated Nuts: A194-2H, Nickel Plated

| Forged Cover                   | Spring Washers for Consistent Load |
|--------------------------------|------------------------------------|
| Recessed Gasket Seat —         | Full Width Chamber for             |
| Solid, Rigid<br>Chamber Design | Minimum Lateral Deflection         |
|                                |                                    |

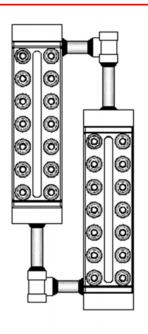

| Single Section Gages |     |            |  |
|----------------------|-----|------------|--|
| Visible Glass        |     | Model      |  |
| inches               | mm  |            |  |
| 9 1/8                | 232 | ST-1000-61 |  |
| 10 1/4               | 260 | ST-1000-71 |  |
| 11 7/8               | 302 | ST-1000-81 |  |
| 12 5/8               | 321 | ST-1000-91 |  |

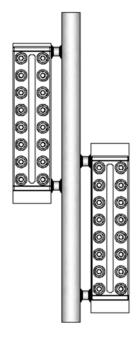

| Multiple Section Gages |      |            |  |  |
|------------------------|------|------------|--|--|
| Visible Glass          |      | Model      |  |  |
| inches                 | mm   |            |  |  |
| 17 1/4                 | 438  | ST-1000-62 |  |  |

| 47 1/2                 | 1207 | ST-1000-94 |  |  |
| 55 3/8                 | 1407 | ST-1000-85 |  |  |
| 59 1/8                 | 1502 | ST-1000-95 |  |  |

## ST-1000 STEAM-TRAC DIRECT READING STEAM/WATER GAGES

The minimum size of a single insert is 9 1/8" visibility. Standard size 6 glass

Gage inserts can be mounted on a center tie-tube to meet any visible range requirement

TB = Top/Bottom Connected

SS = Side/Side Connected

SB = Top Side/Bottom End Connected

TS = Top End/Bottom Side Connected

ST - 1000 - 74 - TB - 04 - U Connection Size  $04 = \frac{1}{2}$ "  $06 = \frac{3}{4}$ " 08 = 1" 12 = 1 ½" 16 = 2"

Connection Type

T = Threaded

S = Socket Weld

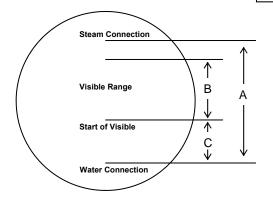

U = Uniflex Union

F = Flanged

N = 304 SS Stuffing Box Nipples

(¾" Top/Bottom Only)

L = Expansion Loop

**Dimensional Information Required:** 

Steam Water Centers A =

Please indicate any valve or

expansion loop requirements.

And

B = Visible Range

And

C = Start of Visibility

The following information is required for prompt, accurate cost quotations and order processing:

- Maximum Operating Steam Pressure
- Steam Water Connection Size and Type
- Other Plant Piping Tie-Ins
- Gage Valve Requirements
